Upgrade your aircraft with the only TSO-certified Starlink® Mini compatible USB chargers*. TA360 MAX Power USB Chargers are the most powerful in aviation, delivering up to 100 watts per port and featuring cutting-edge Power Delivery (PD) Technology. MAX chargers are easy to install in your cabin, cockpit or galley and are a drop-in replacement for True Blue Power TA102 and TA202 Series charging ports.

**True Blue Power USB chargers are not compatible with Starlink® manufactured USB-C cables. A third-party validated cable is required. (Shop link below)*
